DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with J. Robert Brown on 5/26/05.

The application has been amended as follows:

Claims 1-23 are cancelled.

Claims 29-41 are cancelled.

Allowable Subject Matter

2. Claims 24-28 are allowed.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance:

The prior art fails to teach a test device connectable to a relay and connectable to test equipment that tests relays characterized in the structure with a test paddle and a binding post, the test paddle having:

a body portion having a stud opening and a contact opening,
a stud extending through the stud opening,
a contact extending through the contact opening and electrically coupled to the
stud, and

a handle configured for grasping by a hand, and to promote insertion and
removal of the test paddle from the relay;

and a binding post having:

a cover capable of rotating, and

and configured to couple to a test paddle.

Although, the use of a binding post with a cover capable of rotating is commonly
used in the art, for example in circuit boards, in order to promote connection, the prior
art fails to teach the use of such a binding post in a relay testing device.

Any comments considered necessary by applicant must be submitted no later
than the payment of the issue fee and, to avoid processing delays, should preferably
accompany the issue fee. Such submissions should be clearly labeled "Comments on
Statement of Reasons for Allowance."
